

SAVING THE WORLD'S REFRIGERATED CARGO

ArroWatch 24/7 - AI-Human Managed Control Center

Your eyes to monitor sensitive cargo, your long arm to reach and fix failures

AN OPERATING ROOM THAT PROACTIVELY MONITORS AND REMEDIATES FAILURES TO HIGH-VALUE CARGO DURING TRANSIT THROUGH AI-POWERED MONITORING AND 24/7 HUMAN EXPERT OVERSIGHT

Reduces precious cargo damage or loss

Increases customer satisfaction and company's competitiveness

Improves supply chain performance

Reduces insurance-related expenses

THE CONTROL CENTER ACCELERATES REMEDIATION WITH AI AND HUMAN-IN-THE-LOOP.

- Smart algorithms filter, classify & prioritize alerts
- AI-based algorithms that incorporate environmental data to predict failures
- Smart system prioritizes and escalates issues according to tailor-made SLAs
- Control centre team liaises with on-the-ground technical staff to carry out necessary repairs
- Data-driven insights to improve supply chain performance
- Flexible business model - fixed price, monitoring as a service, pay per trip or anything in between
- 100% application and device agnostic
